Oh please, I would love to talk about litigation given you have publicly called me a felon multiple times. I get the feeling only one of us as spoken to a lawyer on this. Why not just be a man and admit your fault but, hey, if you want to talk about loss of profits from a slander campaign, HAH, whose irl job and online business was attacked by whom? Again, I know you don't want to go to that level, but I have legal council on this specifically because I was so afraid of the public attacked lobbed at me.

EDIT: I am speaking to my lawyer right now. I actually BEG you to proceed.

What a sad little man you are; in every sense. It's depressing.

A day after I make a video about you, all of a sudden I get hundreds of calls, yes many from telemarketers and some from people just saying "kill yourself" or texts just with my address in them - gee, wonder why that might have happened. It's almost like someone leaked my phone number, weird.

I provided evidence of multiple attempts to hack into my Twitter and email when I called out the harassment campaign against Buddha.

Steve, you are the one who seriously needs help.

I cannot imagine being such an egotist that you cannot even admit something bad might have happened to another person just because you disagree with them politically. It's really quite a sad state you must exist in.

EDIT: Oh, and yea of course, you've *never* supported doxxing or personal attacks on anyone

.

All I ever have asked is you say you denounce what your fans have done to me and do any time I mention their harassment of me - but you don't because you implicitly support it because you view it as a "win". As a self-proclaimed male feminist, how can you justify that to yourself? Rather than accepting I was harassed, you continue to explain it away. Own up to your shit - your fanbase is crazy you implicitly support their continual deplatforming and attacks upon people they just don't like them,

be it me, Buddha, JonTron, Sargon, or even Dick. I'm talking about a pattern of behavior.

Every other internet personality tells their fanbase to knock it off when it comes to doxxing, harassment, etc - you often outright encourage it. I'm honestly terrified AGAIN now because I dared to speak up for someone suffering the same harassment I did before (and hilariously, in response, your cult started doing it to me again with the attempts to break into my email and Twitter, all to prove how they're totally NOT toxic harassers) because I can't stay silent about how your cult-like fanbase goes after people.

Make a public statement that you condemn this behavior. That's all I ask. Oh wait, you won't because you don't and you view real life like a damn video game.

Did you watch the video...? It's not defending Hitler, it's describing why people do. Those who do not learn history are condemned to repeat it. That is my issue and why I support Buddha.

Maddox calls into Destiny's stream to fellate his ego, receive hilarious backhanded compliments, and express his generalized projection that "everyone is jaded and tired of genitals." by **somewhat_royal** in TheDickShow
[–] **AydinPaladin** 2 points 6 months ago

I think I don't want to fuck with Destiny any more. He has an obvious vendetta or something against me OR probably more realistically he just likes to ruin people's lives. He's said as much in the past. He keeps sarcastically apologizing for what happened to Jon getting booted from Yooka, and it makes me really disgusted. Not surprised Maddox wanted to talk to him to boost his own popularity since I'm sure they agree on everything.

I dont think yoy know what "doubling down" means when I'm the only one providing evidence . It's clear you have an axe to grind though. I really appreciate feedback, but prefer it is coherent and constructive. Just calling me a liar and making claims you don't back up is neither.

Again, it's a political channel. I am a Trump supporter (so is Dick so, a bit confused there). I also am willing to call him out when he fucks up.

I'll repost, but this is what I'm talking about with unemployment http://www.washingtontimes.com/news/2015/feb/10/donald-lambro-obama-hides-jobs-failure-by-not-coun/ Even politifact admits tens of thousands of factories closed. http://www.politifact.com/punditfact/statements/2015/apr/23/ed-schultz/msnbcs-schultz-trade-deals-closed-50000-factories/

Again, I appreciate the compliment.

Gallup still does actual statistical polling, shocking I know in this climate. http://www.washingtontimes.com/news/2015/feb/10/donald-lambro-obama-hides-jobs-failure-by-not-coun/ The fact is, the long-term unemployed are not counted as unemployed, nor are those who cannot find work for more than a few hours a week, which has become increasingly more common, due in part to Obamacare, which disincentivizes companies from hiring full-time employees - I should know I have been an employee working precisely 39.5 hours a week. This is why the reporting regarding unemployment/underemployment are so skewed. I mean, would you trust sources like CNN to report honestly on stuff like this when these are the same people who put Hillary at a 95% chance to win?

What about this defies common sense? I thank you for the compliments, but I don't pull shit out of my ass.

My channel is mostly focused on politics, hence I understand why some may not like it. As for pseudo-intellectualism, I actually dedicate significant time in many of my videos to teaching about media psychology and social psychology, topics which I hold advanced degrees in and teach mostly to freshman and sophomore university students. Admittedly, I'm not an economist, but when I said the political climate of 2004 is/was not the political climate for 2016, I did not mean the exact year 2004 (I apparently may need to make an annotation or note about this), but rather the course of the tenure of GWB. I was generally speaking about how while it was all well and good for late night Comedy Central to be a daily mockery of GWB, that was not really where most people were regarding Trump in 2016, as a mockery because had we on the right lost, we could never have won again.

Also, I also think it was evident Maddox was not merely mocking Trump in the episode where he brings him up as a problem, but actually just disparagging him, which is not what his posts about GWB were.

I'm confused too. I'm guessing there's some bot he has set up to claim videos. The particular one that was claimed for monetization was the "Vote Regressive Party" video, for which I didn't even play the audio. Often you will get videos claimed immediately upon uploading by bots, usually by major networks bots just looking for their content, they automatically flag the claim and then you file a dispute, they don't respond because they don't actually care, and for 30 days you don't make any shekels off of it until the claim falls off automatically - this is why I uploaded the video with the edits because I did not want Maddox to make the whole 5 bucks I might make off this video.

I mean, if you've paid attention to the Hot Goss, not much you don't already know. It's really just me going over the entire history of who Maddox was and who he is now, the falling out with Dick and how he traded his career in comedy/satire to virtue signal and play PC police as a potential warning to other comedians, like Patton Oswalt and Sarah Silverman who do nothing but virtue signal, despite having done politically incorrect bits in the past.
